Inertial Nav Solutions for the Defense Industry

Navhouse understands that reliability, service and cost drive the inertial nav needs of our defense customers. That's why Navhouse sets the industry benchmark for INU repair & overhaul performance.

Your Total INU Solution for Military Aircraft

Navhouse provides recertification and repair and overhaul of Inertial Navigation Units and subassemblies for military aircraft. Our full service capabilities and large rotatable stock provide you with a single source for all your INU needs from level II to IV repair services:

Level II INU, MSU & CDU Repair and Overhaul

- Calibration
- Test and evaluation to system level
- ATP
- System certification
- System runs/tuning for higher accuracy

Level III Inertial Platform Repair and Overhaul

- Calibration
- Test and evaluation

Level IV Gyro, Accelerometer & Circuit Card Repair and Overhaul

- Instrument repair and overhaul
- Reassembly
- Calibration
- Test and evaluation
- Refurbishment

Airborne INU & Instrument Repair Capabilities

Navhouse supports INU and instrument repair on a full range of Litton INUs for military aircraft including:

- AN/ASN-48
- AN/ASN-63
- AN/ASN-92
- AN/ASN-117
- AN/ASN-141
- AN/ASN-56
- AN/ASN-74
- AN/ASN-109
- AN/ASN-130
- Litton LTN-51/58/72/72R and variants

Quality You Can Depend On

An ISO 9001:2008 and SAE AS9100C facility, Navhouse provides our customers the most stringent levels of quality assurance for inertial repair and overhaul. Our systems integrity is maintained to OEM specifications and standards with universal test equipment. Navhouse's Class 1,000 clean room ensures the highest standard of instrument repair and overhaul.

Large Rotables Inventory

Whether it's a lease, core exchange or direct sale of units and subassemblies, our large inventory of INU and subassembly rotatables ensures our defense customers are mission ready.
